amendment Offered by Rev. George D. Baker, of Philadelphia, to Dismiss the Entire Subject of the Revision. Is Defeated by an Overwhelming Vote-The Time for yards Voting Upon the Question Is Extended, in Order to Give All Who Desire on Opportunity to Be Heard Upon the Subject.

B: Exclusive Wire from The Associated Press. Philadelphia, May 24.-The Presbyterian general assembly today, by a vote which showed conclusively that a revision of the confession of faith was desired by the church, defeated the amendment dismissing the whole subject, offered yesterday by Rev. George Baker, of Philadelphia. The assembly decided by an overwhelming majority to continue consideration of the great question, after two days of debate, during which leading expotents of the Presbyterian doctrine throughout the country thoroughly analyzed the creed and gave their reasons for their positions regarding the subject. At the opening of the aftermon session the assembly decided to vote on the amendment at 4.30 o'clock, and speeches were limited to ten minutes. The time, however, was extended, in order to give a number of commissioners who wished to be heard

an opportunity of speaking. The principle addresses of the day ere made by Rev. Dr. John De Witt in the morning, and Rev. Dr. Charles A. Dickey, closing the debate. Dr. DeWitt favored dismissal, declaring that though there might be slight divergence of opinion on the confession, church was united on the word of Cod Dr. Diekey took a decided stand against dismissal. He said as the dire | place, Brooklyn, was prefaced by a question of revision was not before

supremacy of holy Scripture as the only source of doctrine; that the system of confession is the same as holy Scripture teaches, and that infants are saved by God's electing grace. The discussion at times was lively, without bitterness. The assembly ad-

Jenkins' body was sent to the morgue, and Miss Barber was sent to the central police station, where she made a statement, which in substance was as follows:

"I kept company with Jenkins for more than a year. He was of a jealoos disposition. He plagued me much of late that I notified him that I would have nothing more to do with him. I have seen little of him during the past month. Yesterday afternoon he came to my boarding place and induced me to take a sail on the Delaware river to a pleasure resort near Resort, N. J. He pleaded with me, saying it would do him great good and that we might come to an understand-

"I consented and we spent the afternoon together. We returned to the city tonight and went to the hotel for refreshments. The moment we entered the rooms be locked the door, drew a pistol and told me he was going to kill me. He threatened to either shoot me or throw me out of the window. He said he could not live without me and that I would be dead before 12 o'cloc'k. I pleaded with him to spare my life, but he was obdurate. Placing the pistol at my head he forced me to write at his dictation the letter to my landlady. Then I though: I might save my life by restorting to strategy. I asked him for one drink before I died and he ordered beer. When the waiter appeared with the bottle I sprang to the window and attempted to jump out into the street. My dress caught and held me and then I knew no more. Miss Barber said that denkins was a Schenectady, N. Y., May 24.—David gentleman finely educated. He had a position with the Keystone Telephone

MOVE AGAINST THE SECRET SOCIETIES

Important Topic Discussed by the United Presbyterian Assembly.

By Exclusive Wire from The Associated Press. Des Moines, Iowa, May 24.-The important topic today before the United Presbyterian general assembly was a revision of the creed by an amendment which provides that no member of any secret society can be a member of the church. The matter was hotly discussed for more than two hours, but final decision was postponed. The Masonic and Odd Fellows' orders were special objects of attack, one delegate going so far as to say he believed no member of a secret society could ever each heaven.

favored revision, stating that as a reason men go to secret societies beause the church creed is too narrow. Dr. James Crowe, of Philadelphia, was particularly bitter against the Masonic order and called the exercises of the lodge "worshipping without Christ." Dr. McMillan thought fraternalism taught by secret societies was anti-Christian. Rev. T. E. Moffatt, of New York, said no man could be both a Mason or an Odd Fellow and a Christion. Rev. E. K. Smith, the only colored delegate, thought secret societies were wrong, because they compelled a man to keep secrets from his wife, which was contrary to the Bible teachings. The afternoon session was occupied by reports of missionary societies and women's boards. United States Minister E. H. Conger will address the

CONVENTION OF MACHINISTS

assembly on Monday.

President James O'Connell, of the International Association, Discusses Probable Strikes.

By Exclusive Wire from The Associated Press Washington, May 24.—President James O'Con'nell, of the International Association of Machinists, said tonight that he would recommend to the next annual convention of machinists at Toronto, beginning June 3, that a date be set for a nine-hour day without reduction in wages on all the railroads of the country. On railways which fail to comply with this demand a strike will be ordered. This recommendation will be made in Mr. O'Consell's annual report.

Mr. O'Connell says that such a strike would involve probably 100,000 men, inluding 40,000 machinists, the others being boiler makers, pattern makers and semi-skilled workmen who work with the machinists in the various shops. The policy will be to enforce the demand by tieing up practically the entire mechanical service of the roads. It was simply a matter of policy, he said, that the railroads were not included in the present strike, Although a number of them are now involved, none of the roads were origi-nally contemplated in the order declaring the' present strike. Mr. O'Connell says the convention doubtless will fix a date when the nine-hour day must be in operation on all roads and he believes this date should be some day in the autumn.

At 5 o'clock this afternon Mr. O'Connell said the outlook of the present strike was very gratifying. A report from Memphis, Tenn., announced the sixnature of six establishments there to the agreement. The headquarters of strike has been shifted from Washington to Toronto, for which city residence to the members of the for- President O'Connell left to-night.
